SAN FRANCISCO, March 21, 2018 /PRNewswire/ -- Spring has sprung! For weary patrons eager to get back on the scene following a long winter, [OpenTable](#), the world's leading provider of online restaurant reservations and part of [Bookings Holdings, Inc.](#) (NASDAQ: BKNG), has released its list of [100 Best Restaurants in America for a Big Night Out](#). Whether searching for an upbeat locale for drinks with the girls, show stopping views for an anniversary celebration, or lively ambience for a birthday surprise, the top 100 list delivers on delicious fare with flair - the perfect backdrop for a fun night out.

"The list features an array of buzzworthy restaurants, from up-and-coming to established, trendy to tried-and-true, across 24 states and Washington D.C." said Caroline Potter, Chief Dining Officer at OpenTable. "Whatever your notion of a big night out entails, whether it's a bustling bar scene or a spot to see-and-be-seen, fun is on the menu at any of these honorees."

With 18 restaurants on the list, California claimed the highest number of restaurants for a night on the town, with Florida in hot pursuit with 17. Fifty cities, from coast to coast, are also featured. New York and Las Vegas appear more than any other destination on the list; though trailing closely behind is Chicago with seven restaurants, including [Girl & the Goat](#) and [RPM Italian](#) & [RPM Steak](#).

The list of the 100 Best Restaurants for a Big Night Out is generated solely from more than 12 million verified OpenTable diner reviews collected between February 1, 2017, and January 31, 2018. All restaurants with a minimum "overall" score and number of qualifying reviews were included for consideration. Qualifying restaurants were then scored and sorted according to the percentage of reviews for which "hot spot" was selected as a special feature.

Based on this methodology, the following restaurants, listed in alphabetical order, comprise the 100 Best Restaurants for a Big Night Out in America for 2018, according to OpenTable diners.
