

# 908 Devices Equips rescEU Disaster Preparedness Reserve with Advanced Chemical Detection

4/30/2025

The company's handheld devices are incorporated in strategic CBRN stockpiles

BOSTON--(BUSINESS WIRE)-- **908 Devices Inc.** (Nasdaq: MASS), a pioneer of purpose-built handheld devices for chemical analysis, announced that its devices for rapid chemical detection at the point of need are being included in strategic stockpiles within Europe as part of rescEU, an EU-funded project that is establishing a reserve of disaster response capabilities. These reserves include stockpiles of chemical, biological, radiation and nuclear (CBRN) capabilities for detection, sampling, identification and monitoring due to unintentional disasters or intentional attacks.

Over the past six months, the Company has shipped multiple devices to European Union member states utilizing rescEU funds. Shipments include:

- The Czech Fire Brigade, part of the integrated emergency rescue system that covers the Czech Republic, received 12 devices across two product lines: **XplorIR**, for real-time identification and quantification of over 5,000 gases and vapors, and **ThreatID**, for identification of more than 28,600 unknown solids, liquids, and gases.
- The Finnish rescEU project purchased a significant amount of **ProtectIR** handheld FTIR analyzers, with partial unit shipments in Q4 2024 and the remaining units shipped in Q1 2025. ProtectIR enables rapid identification of more than 23,000 bulk solid and liquid chemical substances. The Finnish rescEU project is carried out by the National Emergency Supply Agency, the Finnish Institute for Health and Welfare, the Radiation and Nuclear Safety Authority, the Ministry of the Interior, and Ministry of Social Affairs and Health.

“The ability to rapidly identify unknown threats in the field is critical to modern disaster response,” said Kevin J. Knopp, CEO and Co-Founder of 908 Devices. “We are proud to support efforts to equip frontline teams across Europe with advanced chemical detection technologies.”

As disaster preparedness efforts continue to expand, 908 Devices remains committed to delivering innovative solutions that protect first responders and communities worldwide.

#### About 908 Devices

908 Devices is revolutionizing chemical analysis with its simple handheld devices, addressing life-altering applications. The Company's devices are used at the point-of-need to interrogate unknown and invisible materials and provide quick, actionable answers to directly address some of the most critical problems in vital health and safety applications, such as the fentanyl and illicit drug crisis, toxic carcinogen exposure, and global security threats. The Company is headquartered in the heart of Boston, where it designs and manufactures innovative products that bring together the power of complementary analytical technologies, software automation, and machine learning.

#### Forward Looking Statements

This press release includes "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts are forward-looking statements, including, without limitation, statements regarding the expected uses and capabilities of the Company's products. Words such as "may," "will," "expect," "plan," "anticipate," "estimate," "intend" and similar expressions (as well as other words or expressions referencing future events, conditions or circumstances) are intended to identify forward-looking statements. These forward-looking statements are based on management's current expectations and involve known and unknown risks, uncertainties and assumptions which may cause actual results to differ materially from any results expressed or implied by any forward-looking statement, including the risks outlined under "Risk Factors" and elsewhere in the Company's filings with the Securities and Exchange Commission which are available on the SEC's website at [www.sec.gov](http://www.sec.gov). Additional information will be made available in the Company's annual and quarterly reports and other filings that it makes from time to time with the SEC. Although the Company believes that the expectations reflected in its forward-looking statements are reasonable, it cannot guarantee future results. The Company has no obligation, and does not undertake any obligation, to update or revise any forward-looking statement made in this press release to reflect changes since the date of this press release, except as may be required by law.
