NEWS RELEASE

Metropolitan Washington Council of Governments Adds 908 Devices' XplorIR to Its Hazardous Materials Response Toolkit

2025-06-03

BOSTON--(BUSINESS WIRE)-- **908 Devices Inc.** (Nasdaq: MASS), a pioneer of purpose-built handheld devices for chemical analysis, announces that the Metropolitan Washington Council of Governments (COG) has purchased eight **XplorIR** devices, one for each of the seven counties and District of Columbia, which comprise the COG. The devices were shipped in Q1 2025, with training taking place in Q2 2025.

The handheld XplorIR device accurately detects, identifies, and quantifies 5,000 unknown gas and vapor chemical threats in seconds. The device has simple controls, an intuitive display and is built for harsh environments, making it easy for first responders to use in emergency situations.

"The XplorIR is a crucial addition to our response toolkit," said Peter J. Dziubla, Captain, DC Fire and EMS Department, Hazardous Materials Unit. "The ability to quickly detect and identify an unknown gas provides the information we need to contain a potentially dangerous situation and to keep people safe."

The Metropolitan Washington COG is an independent, nonprofit association that brings District of Columbia, Maryland and Virginia leaders together to address regional issues, such as homeland security and public safety. COG brings police chiefs, fire chiefs, emergency managers, and other leaders together to strengthen regional public safety coordination, homeland security planning, and emergency communication.

About 908 Devices

908 Devices is revolutionizing chemical analysis with its simple handheld devices, addressing life-altering applications. The Company's devices are used at the point-of-need to interrogate unknown and invisible materials and provide quick, actionable answers to directly address some of the most critical problems in vital health and safety applications, such as the fentanyl and illicit drug crisis, toxic carcinogen exposure, and global security threats. The Company is headquartered in the heart of Boston, where it designs and manufactures innovative products that bring together the power of complementary analytical technologies, software automation, and machine learning. Forward Looking Statements for 908 Devices

This press release includes "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts are forward-looking statements, including, without limitation, statements regarding the expected uses and capabilities of the Company's products. Words such as "may," "will," "expect," "plan," "anticipate," "estimate," "intend" and similar expressions (as well as other words or expressions referencing future events, conditions or circumstances) are intended to identify forward-looking statements. These forward-looking statements are based on management's current expectations and involve known and unknown risks, uncertainties and assumptions which may cause actual results to differ materially from any results expressed or implied by any forward-looking statement, including the risks outlined under "Risk Factors" and elsewhere in the Company's filings with the Securities and Exchange Commission which are available on the SEC's website at **www.sec.gov**. Additional information will be made available in the Company's annual and quarterly reports and other filings that it makes from time to time with the SEC. Although the Company believes that the expectations reflected in its forward-looking statements are reasonable, it cannot guarantee future results. The Company has no obligation, and does not undertake any obligation, to update or revise any forward-looking statement made in this press release to reflect changes since the date of this press release, except as may be required by law.
