WEX Announces New ClearView Snap Skill for Amazon Alexa

8/13/2020

PORTLAND, Maine--(BUSINESS WIRE)-- **WEX** (NYSE: WEX), a leading financial technology service provider, today announced the launch of its new ClearView Snap voice skill for Amazon Alexa. ClearView Snap is a data analytics platform that offers fleet managers and administrators quick and easy insights into fleet expenses through easy-to-read graphs and charts. This new integration will now allow customers to access their information through an interactive conversation.

"We're always looking for new ways to evolve our products and are thrilled to be able to offer a new way for customers to engage with ClearView," said Erin Knight, vice president of fleet product innovation at WEX. "This hands-free approach brings a whole new experience to our customers, allowing them to quickly access their fueling information by simply using their voice."

With the new skill, ClearView Snap customers can ask Alexa about fuel card metrics, purchasing trends, and transaction activity. Alexa will verbally relay information about dollars spent, gallons purchased, highest-spending employees, as well as savings opportunities and potential misuse exceptions.

WEX collaborated with its ClearView customers in the design and testing of this new skill, gaining valuable insight to help deliver the best experience. Customers can access the free ClearView Snap skill through any Amazon Alexa-enabled device.

For more information regarding the ClearView Snap skill, including a list of supported requests, please visit <http://www.fleetclearviewsnap.com/alex>.

About WEX
